

SYDCO ROTATING HEADS

"We've been turning heads for years."

Includes Lifting Lid and Cable

Provides for safe and effective installation and removal of bearing from drill pipe.

Internally Lubricated Bearing Assembly

No oiling system required to lubricate bearing which means ZERO maintenance

Four Adjustable Anchor Points

Allows for off-center drilling to save rubber elements.

Custom Bowl Top

Can be lengthened or shortened to customer specifications. This eliminates the need for renting a spacer spool.

Unlimited Applications

Equipment can be installed on any BOP

Self-Aligning Bearing Assembly

Exterior design does not allow for bearing misalignment during installation

Custom Discharge Outlet

Provides maximum rate of flow for your rig type. Available in 8 5/8", 10 3/4", or 12"

Rotating head package comes complete with a bowl top, bearing assembly, starting mandrel, drilling nipple, logging adapter, and flow line swedge.

The package also includes a weekly visit from your local service provider to ensure the best possible customer satisfaction.

13 5/8" X 3000

11" X 5000

11" X 3000

7 1/16" X 3000

Screw-On Applications

8 5/8" male or female

ACCESSORIES

Pipe Wiper Attachment

This attachment is used to scrub the pipe as it comes out of the hole. This is ideal when dealing with oil based mud products.

Casing Stripper Attachment

This attachment is used to align and run your casing products. This is available for 9 5/8", 8 5/8", 7" and 5 1/2" casing.

Spare Bearing Service

By using this service you virtually eliminate the need to change rubber elements on the bearing assembly.
